DRIVER INFORMATION PACKET

#REEDYRACE2018

Few men in any industry are considered "Pioneers". However, ask anyone who was around R/C cars in the late 70's and every one of them will say they knew Mike Reedy. Mike's passion for racing and kind heart endeared him to anyone he came in contact with.

As organized racing became more and more popular in the mid 80's, Mike decided to celebrate his birthday in the best way he knew how; by hosting a race. But this race would not be just any race. The top competitors from around the world were invited to compete in a unique heads-up format that has set the standard for r/c racing excitement and difficulty. 32 of the best drivers from around the world battle head-to-head in eight rounds of eight cars across four heats utilizing 2wd and 4wd buggies. As the races are completed, drivers gain points based upon finishing positions with six of the eight rounds counting towards their overall score. Unlike most racing, this format isn't necessarily about being the fastest driver, but instead knowing how to win races. As the years passed and champions like Lett, Hirosaka, Kinwald and Pavidis were crowned, 4wd buggy fell out of favor among the world racing stage and the Reedy Race lost its luster.

After a seven year hiatus and a resurgence in off-road racing, the most exciting race returned to massive interest and approval. With the latest crop of racers eager to etch their name on the Mike Reedy Heritage Trophy along with the great champions of yesteryear, the race continues to be one of the most coveted titles in the world. In addition to the Invitational class, Mike wanted to showcase the talents of the up and coming drivers and created the Open Classes where the winners are granted a place in the exclusive Invitational class the following year.

RULES

- ROAR technical vehicle rules govern the Open classes and IFMAR technical vehicle rules govern the Invitational class.
- Battery may be any size/configuration and is limited to 2S and 8.40v. Chassis layout not required to fit full size battery.
- Each driver may only tech and race one car per heat/round/main. No substitute vehicles.
- When held on the racing surface, 4wd vehicles must significantly drive the front tires when rear tires are lifted.
- A broken vehicle may not be repaired during its race. One minute grace given to repair a broken vehicle before mains & invite heats.
- Black flags and driving penalties will be issued at the referee's discretion.
- Tires must be marked and purchased with the "OC" logo for all races that are used for seeding, qualifying, heat races and main events.
- The control tire additive may only be applied in the designated area. No scrubbing-in/wiping/heating tires may be done. Tires may only be wiped with blue shop towels after tech.
- Tire cleaning may only be done in the designated wash station. No personal tire washing stations.
- Only the spec JConcepts 2wd tires and Pro-Line 4wd tires may be used. Front tires must be used on the front and rear tires must be used on the rear and on their intended vehicle.
- Modifying and/or sanding and/or cutting and/or heating any control tire is not allowed. Only natural tire wear from the racing surface is allowed. Two 3 mm vent holes per tire is allowed.
- The spec JConcepts Dirt Tech closed cell inserts must be used in all tires and purchased from OCRC Raceway. Foam must be used in the intended tire and may be cut and/or trimmed and/or punched.
- Open scoring will use qual points with 2 of the 4 rounds counting. Ties will be broken by adding the combined laps and times of the 2 used qual points. Each class will have double "A" mains with the higher finishing position in the second main determining the tie breaker. 8 drivers per main with 2 bump-ups.
- Invitational scoring will take the five best finishing positions from each class and add them together. Low points win. Ties will be broken by the most number of scored first place finishes, then second place finishes, then third, etc. The final tie breaker is the combined laps and times of the fastest scored round from both classes added together.
- Throw-out rounds will never be used to break ties.
- More detailed rules are listed at www.reedyrace.com.
